PROFESSIONAL SUMMARY

Third-year Computer Science student at FAST-NUCES with a strong foundation in data structures, algorithms, and data science, along with hands-on experience in web and mobile app development. Interested in Android development and focused on building scalable, data-driven solutions.

EDUCATION

National University of Computer and Emerging Sciences (NUCES) | BSCS (3.5/4.00) **2023 - Present**

- Dean's List 3x (Spring 2024, Fall 2024, Spring 2026)

TECHNICAL SKILLS

App Development: Kotlin, SQLite, XML

Languages: C++, Python (Pandas, NumPy, Scikit-learn, Matplotlib)

Web Development: React.js, Express.js, Node.js

Database: MySQL, Firebase

Other: Bash Scripting, Docker, AWS, Linux (Ubuntu), Figma Ui/UX

PROJECTS

TRAVEL DIARY APP | *Android • Kotlin • SQLite • Gemini API • Firebase OAuth • REST APIs*

- Built an Android app for logging travel experiences with photos, maps, and notes
- Integrated an AI chatbot using Gemini API for smart destination suggestions and travel tips
- Used SQLite for local storage with offline support; ready for deployment on the Google Play Store

SECRET CALCULATOR APP | *Android • Kotlin • REST APIs • SQLite*

- Disguised note-taking app unlocked via a secret passcode entered through a calculator UI
- Features include secure notes, BMI calculator, height converter, and live currency rates via REST APIs

GAMESTORE (FULL STACK) | *WEB APP • React.js • Tailwind CSS • Node.js • Express.js • MySQL*

- Developed a full-stack e-commerce platform for buying and selling games
- Managed relational data with MySQL including inventory and stock tracking
- Implemented role-based access control (Admin/User) and secured user data with encryption

WEATHER & NEWS APP | *Android • Kotlin • OpenWeatherMap API • NewsAPI*

- Built an Android app that fetches real-time weather data and latest news using REST APIs

CUSTOMER CHURN PREDICTION | *Data Science • Pandas • Numpy • Matplotlib • Scikit-learn*

- Built a customer churn prediction model using a 7,000+ record Telco dataset with preprocessing and feature engineering
- Implemented and compared Logistic Regression, Decision Tree, and Random Forest models
- Evaluated model performance and visualized key churn-driving features

EXPERIENCE

Freelance Graphic Designer **2019-2020**

- Created social media posts, logos, and banners for 10+ clients

Teacher Assistant (OOP) | FAST NUCES **2024-2025**

Teacher Assistant (DS) | FAST NUCES **2024-2025**
